in the  
Making

The Petersburg Home for Ladies staff and residents are among the many Virginians who have joined the fight against COVID19 by receiving the first round of vaccination.

Though the journey is not over, this milestone fills us with great hope and the anticipation of a strong future.

## ***Vision from our Administrator for 2021***

Friendships we develop are the highlights of working at Petersburg Home for Ladies and the inability to open our doors and see our families was one of the hardest parts of 2020! We have missed seeing your smiling faces! Even through a pandemic, we have had several new residents move in during the year! Some, but not all of our staff, have had the opportunity to meet family members due to COVID restrictions. We look forward to meeting all our residents' extended family members in person in the days ahead.

The vaccine will shed a new light on Petersburg Home for Ladies and life will return to some sort of normalcy as our residents develop immunity. We believe COVID-19 has made some lasting changes and created a new normal for others. When it is safe to return to in-person visitation, we know that some will choose to remain virtual while others may find face-to-face offerings more desirable. We believe visitation through digital spaces (Google Duo, Zoom, iPad) will not fade away post vaccine. Therefore, as we enter 2021, the staff and the leaders of Petersburg Home for Ladies are looking ahead. We will be exploring new ways to engage activities through digital methods and discovering new ways to bring activities to our residents.

We are dreaming, we are gathering information, we are re-imagining some things, and we are adapting. We have the ability to explore, to plan, and to develop vision for how we might meet the new, ever-changing community around us to meet people where they are – online and in-person. Throughout the year, we look forward to sharing with you new and exciting opportunities to do just that! Thank you for your patience and continued support! We have fought this battle on our knees through abundant prayer. Surely the Hand of God has been on the Ladies' Home, our residents, our staff and our leadership throughout this ordeal. May God continue to bless you and your family in 2021.

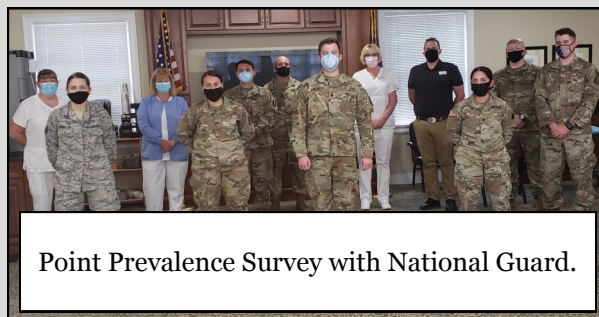

Tree planting with W.E. Bowman in honor of our 95th anniversary celebration.

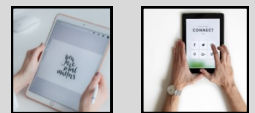

Between face masks, outdoor visits, new technology and a tremendous amount of encouragement, our community partners have discovered new ways of demonstrating their support of the elegant living with exceptional care that has been a staple of the Petersburg area for over 95 years. The connections we so deeply cherish, serve to strengthen and inspire us to pursue the creative processes that make up the pathway which carries us in the future.

Welcoming Crater Community Hospice CEO Zach Holt to our community.

Point Prevalence Survey with National Guard.
