Home for Ladies
SINCE 1925

Our "Ladies' Home" Journal

Elegant Living with Exceptional Care

From King Cake to
festive masks,
Mardi Gras reminds us
to love life and
live life to the fullest!

Kindred
Hospice

Special thanks to the team of
Kindred Hospice for both their
service in our community and
for providing an exquisite
afternoon of entertainment.

Love

Though delicate and genteel, desserts prepared
by our dining services team bolstered the
passion and delight of our residents this past
Valentines' Day. Elegance is central to our
culture and our exceptional team of creative
talents champion the experiences of each of our
ladies through careful attention to detail and
the promotion of individualized preference.

Birthday Social

National Nurses' Week
May 6th-12th

This year's National Nurses' Week theme
is "Rooted In Strength." Please consider
dropping off a card or note of appreciation
for our Nursing Team. As in years past,
we will display these expressions of
gratitude in our reception area to serve as
a tribute and encouragement for our
wonderful caregiving team.

Elegant Living with Exceptional Care is more than
a catch phrase. It is the standard of conduct which
has caused our organization to thrive.

What could be better than dinner from Maria's
complete with a Sinatra serenade? Hosting it in
Time Square of course! Our masterful team of
Recreation Specialists creatively transformed
our activities room into a display of a starlight
sky and a backdrop of sky scrapers...

"I want to be a part of it..."

Often times it is the simplest things that bring the most joy. At the core of our humanity lies the inclination to nurture and celebrate life. Intergenerational activities, as well as visits with

animals, draw out these desires. If you are interesting in scheduling a pet visit, or have a group of youth interested in sharing in the experiences of Petersburg Home for Ladies, please reach out to our activities department by calling 804-862-0663 or by emailing Laura Crocker at: Laura@petersburghomeforladies.org

From frozen to flowering, this past season has truly showcased our well appointed outdoor living spaces. We look forward to watching our grounds subtly transform from crocus to primrose as our activities transition from planting perennials to enjoying cookouts.

Does your volunteer group need service hours?

The spring season is a great opportunity for your group to work in partnership alongside our ladies during outdoor gardening activities.

Tranquility and Memories

The Memorial Garden of Petersburg Home for Ladies is a charming tribute to our loved ones who have gone before us and yet are ever present in our thoughts. Among the physical monuments which embody the spiritual and emotional expressions of our souls, a new project is developing. In partnership with Eagle Scout Candidate Matthew Snow, Petersburg Home for Ladies has once again aligned with the Arrohattoc District Advancement Team of Scouts BSA to provide an opportunity for brilliance, ethics and good old fashion hard work, to enhance the landscape of this precious region of our grounds.

We are excited to announce that Matthew Snow will be creating a tranquility pool at the southern end of our garden. This 120 gallon water feature will enhance the ambient nature of the already reverent and serene environment as the constant waterfall echoes under the canopy of oak and holly. One day the pool may be home to koi or various lilies reminding us of the endless cycle of life.

Established in 1925, Petersburg Home for Ladies has remained the only non-profit residential and assisted living facility in our region. With an unprecedented staff-to-resident ratio, Petersburg Home for Ladies epitomizes the genteel elegance of a bygone era. Elegant living with exceptional care affords our residents the care they need and extra pampering they want.
